

**GRANTEE:** Schultz Center for Teaching and Leadership

**ADDRESS:** 4019 Boulevard Center Drive  
Duval County, Jacksonville, Florida 32207

**AMOUNT:** \$2,961,215

**DURATION:** 24 months

**POPULATION SERVED:** The project will target technology teaching professionals in all Northeast Florida. Both the rural and urban areas of Duval, St Johns, Clay, Nassau and Baker counties will be included. It will train more than 740 technology teaching professionals, 400 of which are incumbents and 225 secondary math and science teachers and guidance counselors.

**BRIEF DESCRIPTION:** The project will train more than 740 technology teaching professionals. The project will provide an ongoing program of the highest quality professional training and support for continuing professional development. It will recruit, train and certify and place 75 technology teaching professionals, upgrade the skills of 400 incumbent technology teaching professionals to be more effective, improve the retention rate of technology teaching professionals by the six regional employers and raise the technology awareness level of 225 secondary math and science teachers and guidance counselors.

**KEY PARTICIPANTS:** The Alliance for World Class Education and the Jacksonville Chamber of Commerce, the University of North Florida, Jacksonville University, IBM, the City of Jacksonville, the Duval County School Board and Information Systems of Florida, Inc.
